

## GDPR — IMPLEMENTATION

**DURATION : 2 DAYS**

### **COURSE OVERVIEW**

Developing an information security management system (ISMS) that complies with GDPR will bring you significant business benefits. This course shows you how to meet the GDPR requirements, increase stakeholder trust and support your business continuity plan.

*GDPR — Implementation* introduces you to the key concepts and principles of the GDPR. You will learn how to interpret the Regulation's requirements in relation to your operations and conduct a gap analysis of your existing systems. We will guide you through the steps to plan, implement and monitor an ISMS that will achieve consistent improvements in your information security and compliance with legislation.

### **BENEFITS**

This course will help your organisation to:

- Identify the key benefits of implementing an effective ISMS that complies with the GDPR.
- Develop a plan and determine the resources required for implementation.
- Use proven tools and techniques to support implementation.
- Implement a system that is responsive to the constantly evolving threats to information security, legislative changes and stakeholder requirements

### **COURSE CONTENT**

- Key concepts and requirements of the GDPR
- Implementing key concepts and requirements.
- Using the Plan-Do-Check-Act cycle.
- Documenting information to satisfy the GDPR requirements.
- Using gap analysis to conduct a baseline review of your current system.
