GDPR — INTERNAL AUDITOR

DURATION: 2 DAYS

The EU General Data Protection Regulation will come into force on 25th May 2018. This course will give you a solid understanding of the Regulation's legal requirements, practical application and the implications for your business.

COURSE OVERVIEW

This two-day course will help anyone responsible for managing their organisation's information security management system (ISMS) to remain consistently compliant against the GDPR requirements. With a hands-on approach to auditing, this course teaches the gap analysis skills needed to continually improve your ISMS.

BENEFITS:

This course will help those with little auditing experience to:
• Develop and plan regular internal audits.
• Have confidence when being audited by ICO assessors.
• Be able to challenge any non-conformities, observations or corrective actions if justified.

COURSE CONTENT

A series of workshops, presentations and role-plays on topics including:
• An overview of information security management system auditing.
• Planning an audit and setting objectives.
• Performing an audit.
• Human aspects of auditing.
• Reporting findings and non-conformity
