ISO 45001 OCCUPATIONAL HEALTH & SAFETY MANAGEMENT SYSTEM - IMPLEMENTATION

COURSE DURATION: 2 DAY

COURSE OVERVIEW

Implementing an ISO 45001 occupational health and safety management system (OHSMS) will support you to create a safer, legally compliant working environment and achieves business efficiencies.

This course introduces you to the key concepts and principles of ISO 45001. You will learn how to interpret the standard's requirements in relation to your operations, and conduct a gap analysis of your existing systems.

We will explain how to plan, document and monitor your OHSMS to achieve consistent improvements in your safety performance and compliance with legislation

BENEFITS

This course will help your organisation to:
- Identify the key benefits of implementing an effective OHSMS
- Review existing arrangements against the standard's requirements
- Develop a plan and determine the resources required for implementation
- Use proven tools and techniques to support implementation.
- Prepare for certification

COURSE CONTENT
- Key concepts and requirements of ISO 45001
- Implementation process and Plan-Do-Check-Act
- Documenting information to satisfy an ISO 45001 audit
- Using gap analysis to conduct a baseline review of your current system
- Monitoring and measurement
- Management system review
