Mitigate Third-Party Risks with ISO27001:2022

A Webinar on Strengthening Your Supply Chain Security

Date & Time: Thursday, April 18th, 2024 | 3:00 PM GMT (45 minutes)

Introduction: Third-party dependencies expose your organization to significant cyber threats. This webinar will show you how to mitigate these risks and secure your supply chain with the new ISO27001:2022 standard.

Benefits: By attending this webinar, you will:

- Learn about the growing cyber risks from bad actors targeting critical suppliers.
- Discover how ISO27001:2022 enhances information security and cyber resilience.
- Hear from renowned experts on best practices and practical tools for managing third-party risks.
- Explore pathways to both UKAS and NON UKAS certification for ISO27001:2022

Agenda:

- **Understanding Third-Party Cyber Threats:** Expert analysis of the evolving threat landscape and its impact on critical suppliers.
(Ian Fielding, ISO 27001 Lead Auditor, NDC Certification Services Ltd.)
- **ISO27001:2022 & Supply Chain Security:** How the new standard helps manage information security, integrate with ISO9001, and achieve certification.
(Ian Fielding, ISO 27001 Lead Auditor, NDC Certification Services Ltd.)
- **Real-World Strategies:** Best practices and tools for mitigating third-party risks from a renowned cybersecurity expert
(Ian Kennedy Compston, EnterpriseRed)
- **Q&A Session:** Ask your questions and get expert advice on managing third-party risks and implementing ISO27001:2022.

Meet the Speakers

Ian Fielding:

Ian is an ISO 27001 lead auditor from NDC Certification Services Ltd. He has over 20 years of experience in information security and auditing.

He has helped hundreds of organisations achieve ISO27001 certification and improve their information security management systems.

He is also a qualified trainer and a frequent speaker at industry events.

Ian Kennedy Compston:

Ian is the founder and CEO of EnterpriseRed, a leading cybersecurity Managed Service Provider and Value Added Reseller. He is a renowned cybersecurity expert and has over 15 years of experience in cyber risk management and threat intelligence.

He has worked with various clients across different sectors, such as finance, healthcare, education, and government with various cutting edge cybersecurity vendors and is a published author..

Testimonials

Testimonials: Here is some of the feedback and reviews from our previous attendees and clients:

“This webinar was very informative and practical. I learned a lot about the new ISO27001 standard and how to apply it to my business. The speakers were very knowledgeable and engaging. I highly recommend this webinar to anyone who wants to improve their cybersecurity and information security management.”

– **Harrison P, Royal Air Force**

“I was very impressed by the quality and depth of this webinar. The speakers shared their insights and experiences in managing cyber threats in the supply chain. They also demonstrated some useful tools and techniques that I can use to protect my business from cyber attacks. This webinar was well worth my time and money.”

– **Paul Buckner , Business Owner Island Riding Centre**

“This discussion helped me understand the importance of mitigating third-party risks and how ISO27001:2022 can help me achieve that. The speakers explained the benefits and challenges of the new ISO27001 standard and how to integrate it with ISO9001. They also answered all my questions and provided valuable guidance. This webinar was very helpful and enlightening.”

– **Dan Green, Qlic IT.**
