

Many organisations manage their quality, health, safety and environmental performance using globally recognised management systems. Business needs can rapidly change, adaptability is key when streamlining processes, ensuring compliance and managing risk. Join us at Beaulieu Motor Museum to learn more about Integrated Management Systems and how they can benefit your company.

### WHO SHOULD ATTEND?

This seminar is aimed at SME's Directors, Quality, Health, Safety and Environmental managers, those responsible for information and data security within an organisation and anyone who would like to gain a better understanding of implementing an Integrated Management System and likely costs.

# SEMINAR EVENT

## INTEGRATED MANAGEMENT SYSTEMS

Friday 18<sup>th</sup> October 2019 at Beaulieu Motor Museum  
9am – 1pm

### SEMINAR OBJECTIVES

To give delegates insight into...

- The framework and key considerations of ISO Integrated Management Systems (IMS).
- Identifying how to audit against each standard and demonstrate compliance.
- Establishing which Certification body is right for you (UKAS or Non-UKAS).
- Streamlining manuals and signposting to each standard clause

The seminar will also cover issues such as:

- How to integrate ISO9001 with other management systems such as ISO14001 (EMS), ISO27001 (ISMS) and ISO45001 (OHSAS).
- Key aspects of ISO45001 and preparing to transition from OHSAS18001.
- How to build an integrated risk register.

## Further Information...

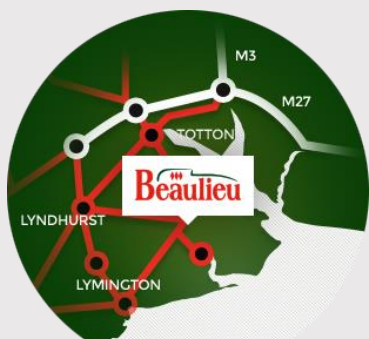

As well as gaining 3 hours of verifiable 'Continuous Professional Development (CPD)', all attendees will also receive a 'NDC Global Auditors - IMS Awareness Certificate'.
