

Person-Centred Care

What do we mean by Person Centred Care, well the term originated in the 1940s and proposed taking a holistic view of service users in care settings. This means getting to know the person and then tailoring their care as much as possible to meet their specific needs. Person centred care is now a key principle outlined in current legislation and it plays an important part in the standards that they set out which must be followed by all care professionals working in this country.

This course will give you an understanding of person centred approaches for care and support, and how to implement a person-centred approach in an adult social care setting.

It starts by explaining what we mean by person centred care and where this term originated. It then goes on to analyse the values represented by person centred care and explains why care should be as much as possible tailored to each service user. Finally it will give you an overview of care plans, daily reports, the importance of obtaining consent and much more.

Course	Module Number	Module Name	Pass % Required
Person Centred Care	1	Course Overview	70
Person Centred Care	2	Definitions and Values	70
Person Centred Care	3	Care Plans and Consent	70
Person Centred Care	4	Daily Reports	70
Person Centred Care	5	Example Care Plans	70
Person Centred Care	6	Case Study	70
